

# THE SOLUTION IN PLASTIC PALLETS

## 100% RECYCLED MOLDED PLASTIC PALLETS

Our patented recycling technology allows us to produce stronger and structurally superior than traditional plastic pallets and for a fraction of the cost. These pallets are ideal for long-term use, all kinds of shipping, storage or imports/exports. We also have the capacity to customize the pallets according to the needs of the product.

**Shipping capacity**  
 -53" Platform-400 pallets  
 -48" Platform-350 pallets

**Size**  
 40" x 48" with base

**Static Load**  
 10,000 kg

**Dinamic Load**  
 2,000 kg

**Rack**  
 1,000 kg

PW-2 40" x 48" Pallet (with base)

Plate to customize name and logo

Legs heavily reinforced to resist impacts and separation in stowage

The base gives strength and rigidity, also provides a flat surface for better stowage

Impact resistant upper platform

Designed for a better stability

Reinforcing base

Input pad and hoist on 4 sides

Recycling the Planet

# THE SOLUTION IN PLASTIC PALLETS

## 100% RECYCLED MOLDED PLASTIC PALLETS

### Design advantages:

- High load capacity
- Stackable
- One piece
- Anti-skid surface
- Four sides
- 100% recyclable
- High performance on usage

### Competitive advantages of PLASTIWOOD:

- Very competitive prices
- Residual value
- Export quality
- Product guarantee
- 100% recyclable ecological products
- Stackable product (it saves space and freight)

### Shipping capacity

53 " Platform -1.000 pallets  
48 " Platform -800 pallets

### Size

40 "x 48" no base

### Static Load

6,000 kg

### Dynamic Load

1,500 kg

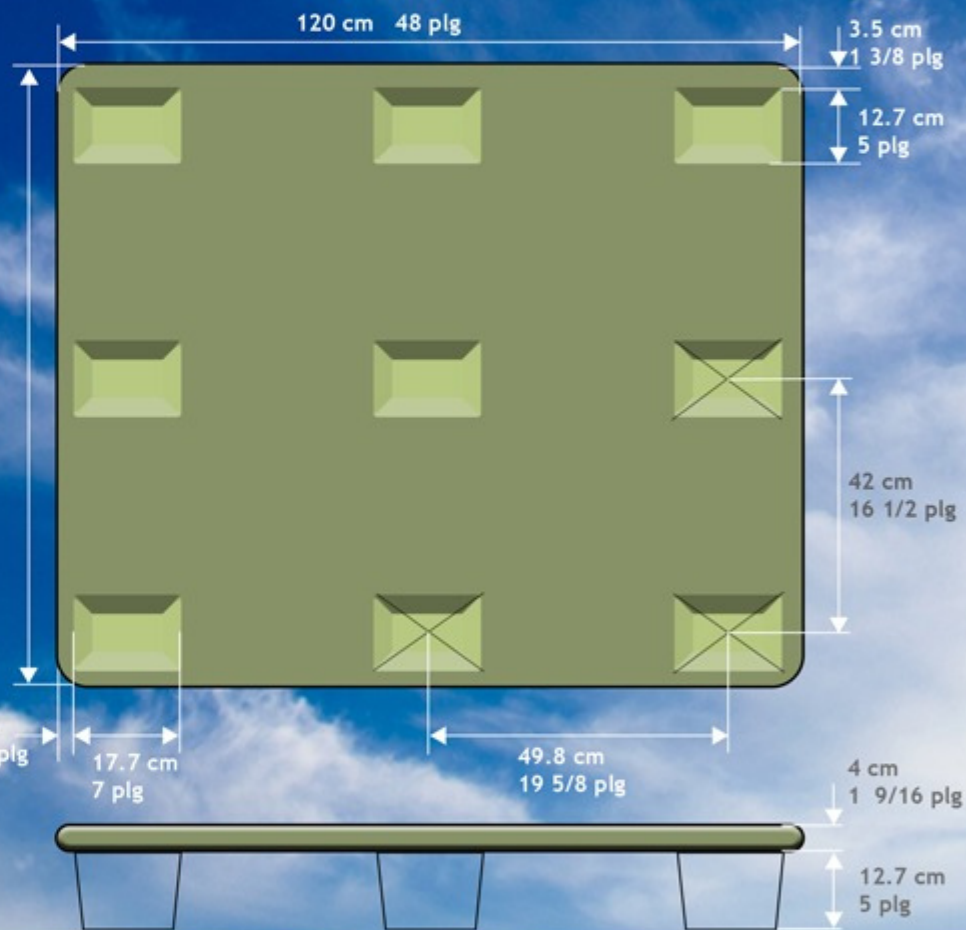

### Rack

N/A

Spaces optimization for storage (picklable)

PW-1 40" x 48" Pallet (picklable)
